

## Clarity's Training Guide

Some courses may be mandatory so we have made it easy for you to find the links and information about these courses:

### **An Introduction to Children's First:** [here](#)

The aim of this programme is to raise awareness and increase knowledge of child abuse and child welfare issues and to clarify personal, legal and organisational roles and responsibilities in recognising, responding to and reporting child protection and welfare concerns

Duration: 90 Minutes

### **Manual Handling and People Handling:** [here](#)

The aim is to provide you with sufficient information to carry out manual handling or people handling tasks in a way that reduces the risk of injury to yourself and others.

Part one: Theory

Part two: Practical

Duration: 1 hour

### **Infection Prevention and Control:** [here](#)

Session includes:

- Health Protection Surveillance Centre- Infection Prevention and Control Guidance on COVID-19 for Staff - Online
- AMRIC Basics of Infection Prevention and Control
- AMRIC Standard and Transmission-Based Precautions

**National Anaphylaxis Education Programme for Healthcare Professionals: [here](#)**

The aim of the programme is to provide the knowledge and skills for the recognition and competent management of anaphylaxis when it occurs

Duration: 1 hour

**The Fundamentals of GDPR: [here](#)**

The aim of this module is to make you aware of your responsibilities as a HSE staff member under GDPR, so that you will improve the way you process data and keep it secure. You will also learn how to recognise and respond to an incident when personal data is not processed correctly (called a data breach).

Duration: 35 minutes

**Irish National Early Warning System (INEWS): [here](#)**

The aim of the programme is to familiarise nurses and HSCPs with the key elements of INEWS in clinical practice while also addressing the key changes in INEWS V2.

Duration: 60 minutes

**AMRIC Prevention of Peripheral and Central Venous Catheter Related Infections: [here](#)**

The aim of this resource is to support you to safely insert, maintain, monitor and remove an indwelling intravascular device in line with infection prevention and control best practice.

Duration: 30 minutes

**Cervical Check: [here](#)**

For women's health and especially for practice nurse roles it is advised to complete training in CervicalCheck. Places are limited and early application is advised
